Press and hold the FF/NEXT button to search forwards for a particular point in a track; when the desired point is reached, release the button.

Press and hold the REV/PREV button to search backwards for a particular point in a track; when the desired point is reached, release the button.

CONNECTING THE DEVICE TO YOUR COMPUTER

1. System requirement

- Pentium 133 MHz or Higher;
- Windows 98 SE/ME/2000/XP/Server 2003;
- 20MB free space available on the hard disk;
- One or more USB port (2.0 or 1.1) available

NOTE: if you use Windows 98 SE as the operating system, you will need to install the USB Driver using the supplied driver disc before you can use this Mp3 player .

2. USB Driver Installation for Windows 98 SE

- Insert the supplied Installation CD in your CD-ROM drive;
- Click on "Driver" in the windows driver selection menu;
- Follow the instructions given by the computer for installation.

DOWNLOAD AND UPLOAD MUSIC FILES

Downloading music files to the player

Connect the player to the PC with the supplied USB cable. Note: You may need a USB driver for your computer to detect the player if you are using Windows 98 Second Edition.

To copy MP3 format files and WMA (without DRM*) files:

1. Click on the My Computer icon on desktop and then click on the Removable Drive Icon;
2. Copy music files of MP3/WMA format from a hard drive on the computer and paste them in the Removable Disc;

* DRM: Windows Media digital rights management (DRM) is a proven platform to protect and securely deliver contents for playback on a computer, portable or Internet devices. For more information, please see www.microsoft.com.

BACK UP MUSIC FILES

Back up music files to the PC

Connect the player to the PC with the supplied USB cable.

Note: You may need a USB driver for your computer to detect the player if you are using Windows 98 Second Edition.

To back up the music files in PC:

1. Click on the My Computer icon on desktop and then click on the Removable Disc Icon;
2. Copy music files stored in the player and paste them to a folder on the hard disc of the PC;

To Disconnect the player for the PC click on the remove drive icon (), located in the system tray on the bottom right hand corner of the PC screen.

NOTE: When connected to a PC it is not recommended to move files between the internal memory of the player and any inserted card , without first moving them to the hard drive of the computer, failure to follow this advice may result in corrupted files.

INSERT AN SD OR MMC CARD INTO THE UNIT

Please ensure that the unit is turned off before inserting an SD card. Inserting a card with the power may lead to corrupted data and spurious operation of the unit.

Insert an SD or MMC card into the slot in the player (label side down).

Press and hold the Play/Pause button to turn on the player;

To Switch playback between the SD/MMC card and the internal flash memory, press and hold for 2 seconds Play/pause button to enter STOP mode, then press MODE button briefly. The relevant Icon will be shown in the display depending on the selected memory.

Note: Do not insert SD/MMC card with power on as this may corrupt files stored on the unit or on the SC/MMC card.

Note: When the SD/MMC card is inserted and the Player is reading data from the Card memory, it may take a few seconds before playback starts .

This player is designed to be compatible with "SD" and "MMC" memory cards. "MMC Plus" memory cards cannot be used.

	S/N ratio	55-60dB
	THD	0.2% (Max 10% THD)
	Max earphone output	(L)5mW+(R)5mW(32 Ohms)
Usable Temperature	5°C ---- 40°C	
Compatible Operating Systems	Windows 98SE/ME/2K/XP or above	

IMPORTANT SAFETY INSTRUCTIONS

- Read and keep these instructions. Follow all instructions. Heed all warnings.
- To reduce the risk of fire or electric shock, do not use or operate this apparatus in or near water or wet locations. Do not spill liquid on this apparatus.
- This apparatus should not be exposed to dripping or splashing or no objects filled with liquids, such as vase, should be placed on the apparatus.
- Risk of electric shock Do not disassemble or modify this apparatus. No user-serviceable parts are inside. Refer all servicing and repairs to qualified personnel.
- Servicing is required when the apparatus has been damaged in any way. For instance, the player does not function normally after it's been dropped or foreign liquid is spilled inside or it is exposed to rain water or moisture. Avoid places of strong magnetic or electrostatic fields such as a turned on TV set or a speaker system while operating this player. Do not use it at places of high humidity.
- Use of headphones while driving is not recommended and is unlawful in some countries. Stop operating this apparatus if you find it disruptive or distracting while operating any type of equipment.
- Listening to music at full power over long time can be damaging to the hearing of the user.
- Do not clean the apparatus with solvents, chemicals or abrasive cleaners. Use a soft cloth when cleaning.

Note: Use attachments/accessories specified by the manufacturer only.

TROUBLE SHOOTING

1. The player doesn't work

Make sure that the battery (one alkaline battery, 1.5V AAA size) is not exhausted and that the battery is inserted correctly.

2. The player doesn't respond to pressing of any button

Check the Hold switch is not in the ON position.

3. No sound when PLAY/PAUSE button is pressed

In this case, you should make sure that

- You haven't pressed this button twice to enter Pause mode.
- Headphones are fully inserted.
- MP3/WMA music files are stored in the memory.

4. MP3 files can't be downloaded from the PC

- a. Check the USB cable is correctly connected to the PC.
- b. Check the drivers (if required) are loaded for the player.
