# MAINS PLUG WIRING FITTED TO YOUR AC ADAPTOR

## PREFITTED MAINS PLUGS

For your convenience a mains plug has been fitted to this appliance. For your safety please observe the following information.

1. Should the fuse in the plug fall remove the plug from the wall socket and replace the fuse with a 3 Amp ASTA approved to BS 1362 fuse.
2. Never use the plug without the fuse cover fitted. Replacement fuse covers are available from your dealer or most electrical retail outlets.
3. If the mains plug is cut off the cable, rewire the replacement plug in accordance with instructions given in this manual.
4. **CAUTION:** Under no circumstances should the discarded plug be inserted into the mains socket. To prevent a shock hazard carefully dispose of the discarded plug. Do not leave the plug lying around where children might see it.

**WARNING:** To prevent fire or shock hazard do not expose this unit to rain or moisture.

**CAUTION: DANGEROUS VOLTAGES EXIST INSIDE THIS UNIT. DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE REFER SERVICING TO QUALIFIED SERVICE PERSONNEL. DISCONNECT FROM MAINS SUPPLY WHEN NOT IN USE.**

This wires in this mains lead are coloured in accordance with the following wiring codes:  
Blue.....Neutral  
Brown.....Live  
This wires in this mains lead must be connected to the terminals in the plug as follows:  
Blue Wire .....N or Black  
Brown Wire.....L or Red  
Only a 3 Amp fuse should be fitted in the Plug or a 5 Amp fuse at the distribution board.

**WARNING: UNDER NO CIRCUMSTANCES MUST THE LIVE OR NEUTRAL WIRES BE CONNECTED TO THE EARTH TERMINAL IN A 3-PIN MAINS PLUG.**

This symbol means that this unit is double insulated. An earth connection is not required.

# WARNINGS

- Use the adapter supplied only to supply power for your unit.
- Unqualified attempts to repair this TV are not allowed. Refer repairs to this unit to a qualified technician only.
- Do not disassemble this unit. There are dangerous-voltage parts inside that may cause electric shock even after power is disconnected.
- Store your unit only in a clean, dry environment. Unplug the unit immediately it gets wet, and consult your servicing technician.
- Always unplug the unit before cleaning it. Wipe dust off the cabinet of the unit with clean&dry&soft cloth. Apply non-ammonia cleansing lotion onto the cloth, not directly onto the screen.
- Keep your unit away from magnetic objects, motors, TV sets, and transformers.
- Do not place heavy objects on top of the unit.
- Avoid exposing your unit directly to sunlight or other heat sources.
- Put your unit in a well-ventilated area away from high humidity.
- The apparatus and AC/DC adaptor shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on apparatus.

## **Safety Tips**

- If smoke, abnormal noise or odour comes out of your unit, power it off immediately and call your local service centre.
- Never try to repair the your unit on your own. Always call your local service center for repairs.
- Watching TV while driving is illegal and dangerous!

## **Note**

This user's manual contains for-reference-only graphics and information that are subject to change without notice.

31. **-/-- button**
32. **CLEAR button** - Clear the input information (DVD function key).
33. **UP/DOWN navigation buttons** - Select the options under OSD setting interface.

## REMOTE CONTROL PREPARATION

### Battery Installation A

Insert two batteries observing the correct (+) and (-) polarities engraved beside the battery compartment.

#### Service life of batteries

- The batteries normally last for about one year. And battery life time may vary with the frequency the remote control unit is used.
- Batteries need replacing if the remote control unit fails to work even near the player's remote sensor. Do not mix new battery with used one or batteries of two different types.
- Use 2 batteries of size AAA.

#### Notes:

- Do not attempt to recharge, short-circuit, disassemble, heat or throw the batteries into the fire.
- Do not drop, step on the remote control unit. This may irreparable damage.
- If the remote control unit is not going to be used for a long time, remove the batteries. Otherwise, electrolyte may leak which may lead not only to malfunction but to burns if contact is made with the electrolyte.
- Wipe away any electrolyte leaking inside the remote control, and install new batteries.
- If any electrolyte should come into contact with parts of your body, wash it off thoroughly with water.

### Remote Control Operation Range B

Point the remote control unit from no further than 7m from and within the scope of 60° in relation to the remote sensor of the player.

- The distance may vary according to the brightness of the room.

#### Notes:

- Do not point bright lights at the remote control sensor.
- Do not place objects between the remote control unit and the remote control sensor.
- Do not use this remote control unit while simultaneously operating the remote control unit of any other equipment.

# BASIC CONNECTION

## Connecting to the AC outlet

## Connecting to DVD/VCD S-Video Terminals

## Connecting to the TV

## Connecting to PC

## Connecting to DVD/VCD AV Terminals

## Connecting to DVD with SCART video output connectors

# TV OPERATIONS

## GET STARTED

- Be sure your TV set is connected to the TV properly;
- When the AC adaptor is connected, the power indicator turns red and the TV set turns to standby mode automatically.
- Press POWER button on top of the TV set or on the remote control once to turn on the TV.
- Press the TV/AV button on top of the TV set or on the remote control to switch to TV Mode(TV icon appears at the right top corner of the screen).

# MONITOR MAINTENANCE

## Cleansing

- Do not spray non-standard cleansing lotions directly on to the screen; this may damage the screen.

- Wipe the monitor with soft smooth cloth moistened with the cleansing lotion recommended; this can provide sufficient protection for the screen.

- Place the unit so it is way away from items such as a vase or chemicals: this may cause unwanted harm, electric shock or fire.

- Cleansing this housing with volatilisier, thinner or any corroding chemicals is prohibited as this unit contains plastic parts that are susceptible to corrosion or flammability when in contact with them.

## Others

- Unplug the unit immediately it does not function correctly (for example, abnormal sound or blank screen or smoke). This could save you from the occurrence of a fire.

- Do not open the housing( through back cabinet) -- no serviceable parts are included; you could risk exposing yourself to live components. It may cause electric shock or fire.

- Avoid exposing the monitor to moist dusty or smoky locations; Avoid direct sunlight or other heating sources. This may lead to malfunction of the monitor.

- Do not insert metal object of any kind into the openings of the monitor. This may result in electric shock, fire or injury.

## TROUBLE SHOOTING

Before requesting service for this unit, please check the chart below for a possible cause of the problem you are experiencing.

Some simple check or adjustment on your own may eliminate the problem and restore proper operation.

Symptoms	Possible causes /Remedy
No picture or sound	Check to see if the AC power cable is plugged properly; Make sure the monitor is in play mode.
No picture	Make sure the channel is correctly selected; External TV antenna may be readjusted; Check if the external video input sources are connected.
No sound	Check whether the volume is set to low level or muted? Earphones is inserted into the earphones jack.
Dark Picture	Check the brightness and contrast settings
Unstable Picture	Adjust the direction of the aerial.
Double image	Angle is not correctly set.
Snowy display	ON/OFF interference
No color	Make sure the system settings are correct.
No subtitles.	Subtitles appear only with discs which contain them. Subtitles are cleared from the TV monitor, Perform the steps to display the subtitles.
Angle cannot be changed.	This function is dependent on software availability. Even if a disc has a number of angles recorded, these angles may be recorded for specific scenes only.
When in VGA input mode, the message "signal out of range" appears on the screen.	1. The default resolution of your PC should not exceed 1024X768. 2. The frame upgrade frequency should not exceed 75Hz, otherwise, this unit will not work in a normal way.
