UNIT POWER SUPPLY

Unit power supply (mains 230V/50Hz)

Connect the power cable plug to the (230V) wall outlet.

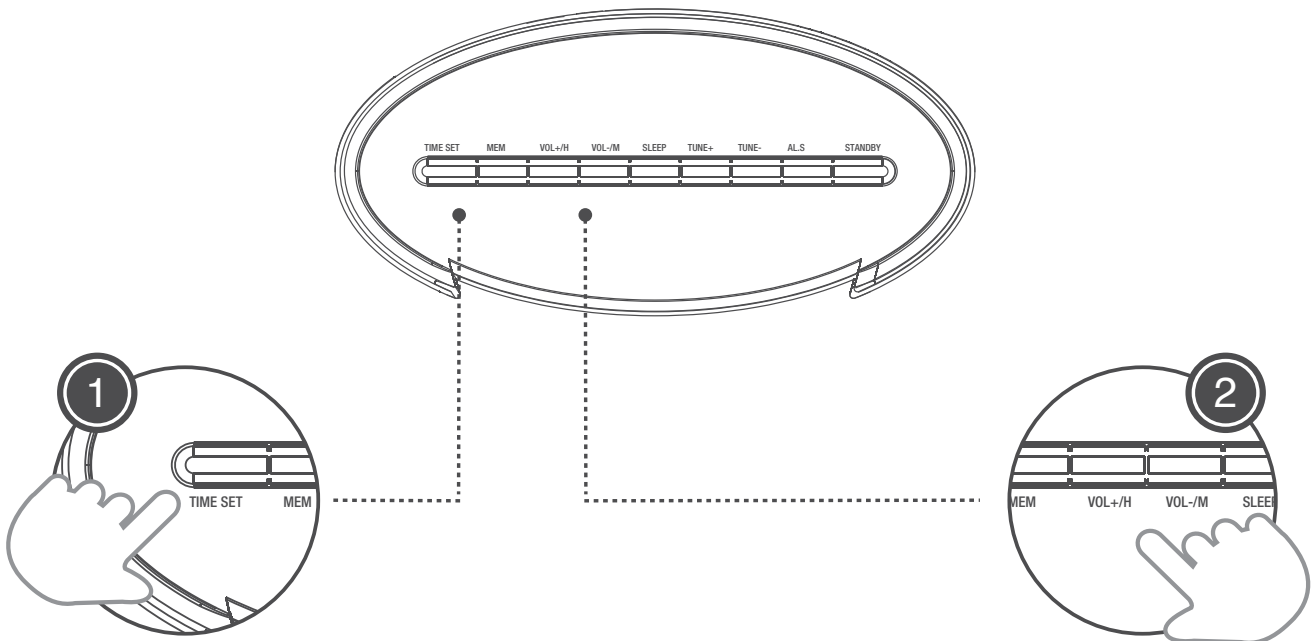

Warning:

- Before using the unit, check that the local mains supply is compatible with the unit 230V (50Hz).
- Do not plug or unplug the power cable when your hands wet.
- When planning not to use this unit for long periods of time (i.e., Vacation etc.) disconnect the plug from the wall outlet.
- When disconnecting the power cord from the wall outlet, grasp the plug; do not pull the cord in order to avoid shock risks caused by the damaged cable.

1. CLOCK SETTING

In standby mode

1. To set the clock, Press and hold TIME SET/PRESET button **A** to make the time begin to flash
2. Press HOUR/VOL- BUTTON **C** or MIN/VOL+ button **D** repeatedly to set the correct time and press PRESET/CLOCK to confirm.

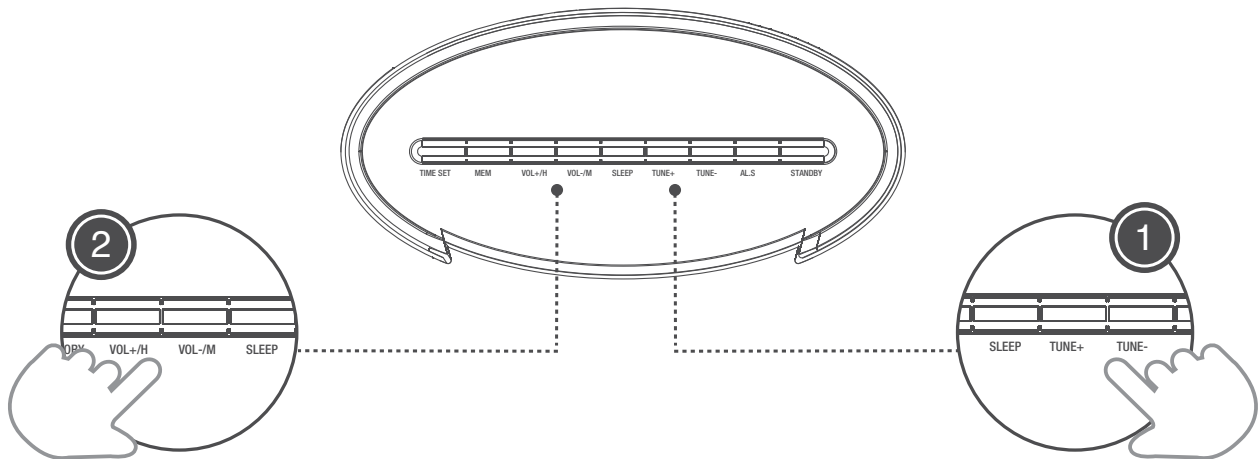

2. ALARM 1 SETTING

In standby mode

1. Press and hold AL-1/PREV button **F** to make AL-1 LED indicator & time begin to flash.
2. Press HOUR/VOL- button **C** or MIN/VOL+ button **D** respectively to set the correct time and press AL-1/PREV button **F**, then press AL-OFF/AL-S button **H** to choose the alarm sound (FM/AM/buzzer), then press AL-1/PREV button **F** to confirm.

Note: The AL-1 LED indicator will be on. If you want to cancel the AL-1 function, Just press the AL-OFF / AL-S button **H** again until the AL-1 LED indicator is off.

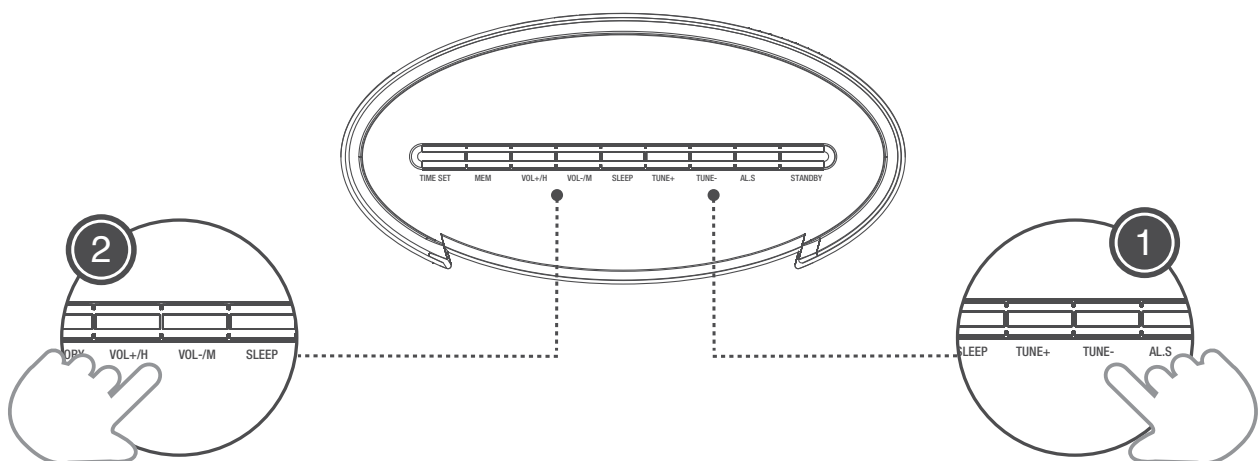

3. ALARM 2 SETTING

In standby mode

1. Press and hold AL-2/NEXT button **G** to make AL-2 LED indicator & time begin to flash.
2. Press HOUR/VOL- button **C** or MIN/VOL+ button **D** respectively to set the correct time and press AL-2/NEXT button **G**, then press AL-OFF/AL-S button **H** to choose the alarm sound (FM/AM/buzzer), then press AL-2/NEXT button **G** to confirm.

Note: The AL-2 LED indicator will be on. If you want to cancel the AL-2 function, Just press the AL-OFF / AL-S button **H** again until the AL-2 LED indicator is off.

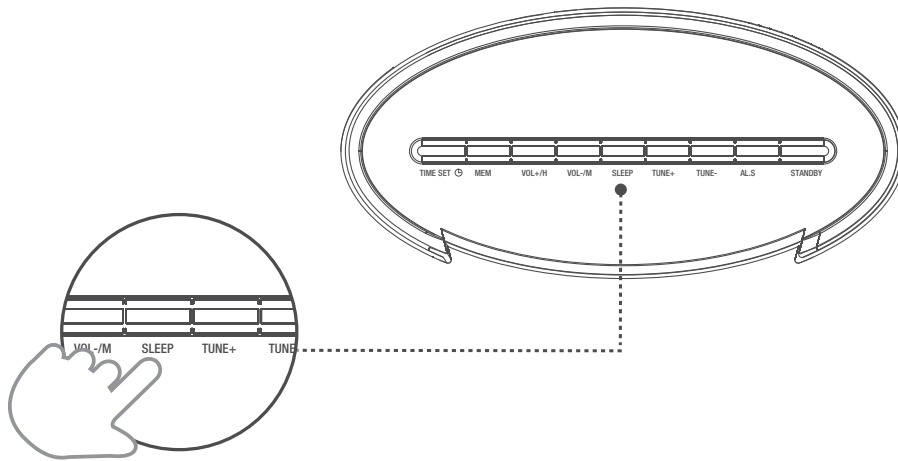

4. SNOOZE FUNCTION

The alarm can be temporarily turned off manually by pushing the unit down; the alarm will turn back on 9 min later automatically. This feature can be repeated endlessly.

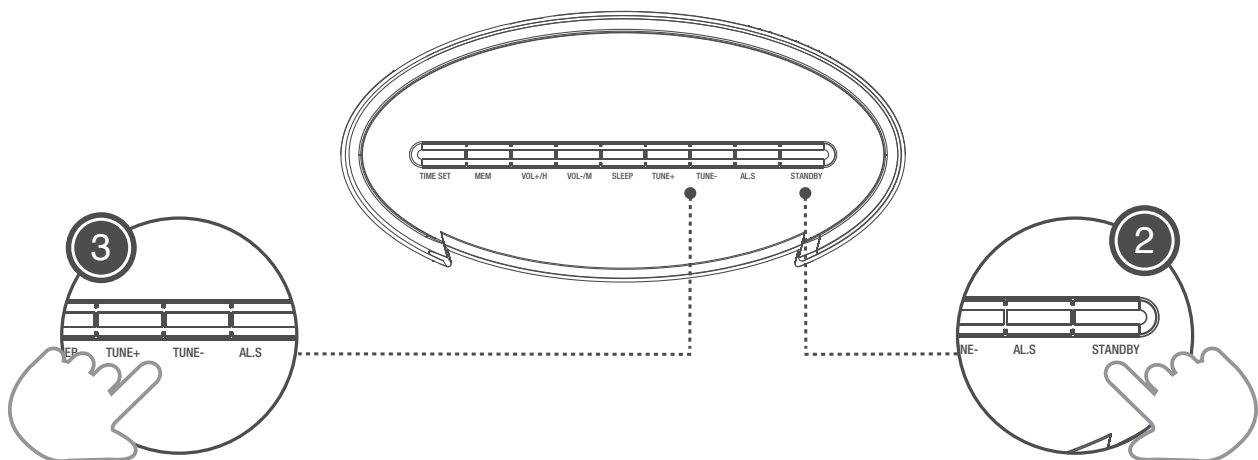

5. SLEEP FUNCTION

7. PRESET SAVING

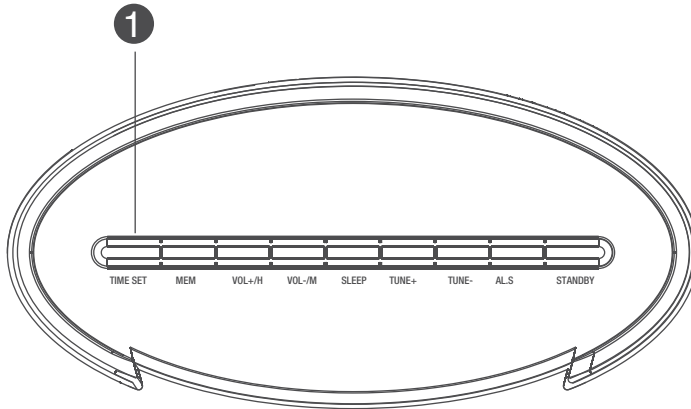

1. Tune to your desired station to the normal tuning procedure.
2. Press MEM button and the station will be stored in the next available preset. (P01 to P20)

8. PRESET RECALL

1. Recall the stored frequencies by pressing TIME-SET/PRESET button to select station as desired. (P01 to P20)

Troubleshooting

Problem	What to do
There is no sound from my radio	Check that the volume is not set to the minimum. Make sure that the radio has been able to locate FM stations.
Poor reception	As with any radio service, there will be areas of weak signal that may cause poor reception. Extend and aim the aerial for the best reception possible, keep the unit away from other electrical equipment.
Some of the buttons don't work	This maybe caused by wear and tear of the buttons after certain usage, and leads to poorer sensitivity, try turning it off and on again.

Technical Specification

Model Number	GCR01
Power Supply	230V AC ~ 50 Hz Adaptor: DC 6V, 250mA
Speaker Output Power	RMS 1W
Frequency Range	FM: 88-108MHz
LED Display	4x Seven Segment Display
