#### 4.1 Power on GDBTSPK30

Connect one end of the provided power cord to the AC in power input. Plug the other end into the power socket.

#### 4.2 Choose the source type

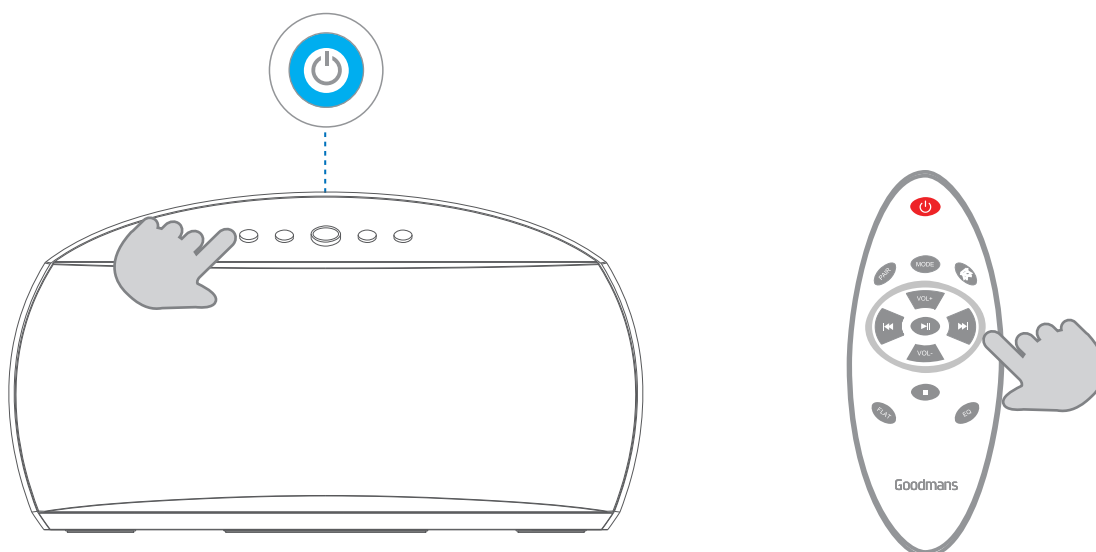

GDBTSPK30 offers four types of audio connectivity for you to choose.

1. Use the MODE button on the remote or press the M button on the top of GDBTSPK30 to change the source type.

2. Identify the source mode using the LED indicator. Press MODE button on the remote control, or press the M button on the top of GDBTSPK30, to set Bluetooth mode. The LED indicator will show blue.

The LED indicator on the top of GDBTSPK30 helps you to identify the status and source mode.

- Green: AUX IN
- Yellow: USB
- White: TF card
- Blue: Bluetooth

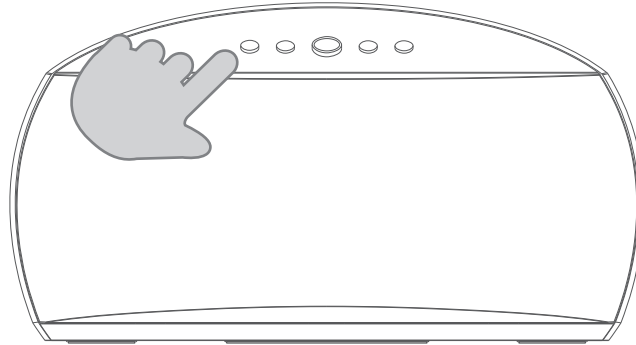

# 5 Features

## 5.1 BLUETOOTH CONNECTIVITY

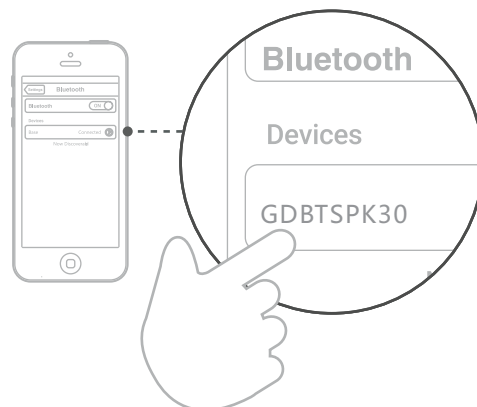

Set the source type to Bluetooth

### Connect to your Bluetooth enabled device

1. Go to the Bluetooth setting on your smartphone, tablet, computer or other devices.
2. Search and select GDBTSPK30 to connect. If your phone is NFC compatible, touch the NFC zone, the  located on the top right of GDBTSPK30,

 This Bluetooth feature is to stream your music collection from your Bluetooth enabled smart phone or tablet. It cannot be used to connect to a Smart TV.

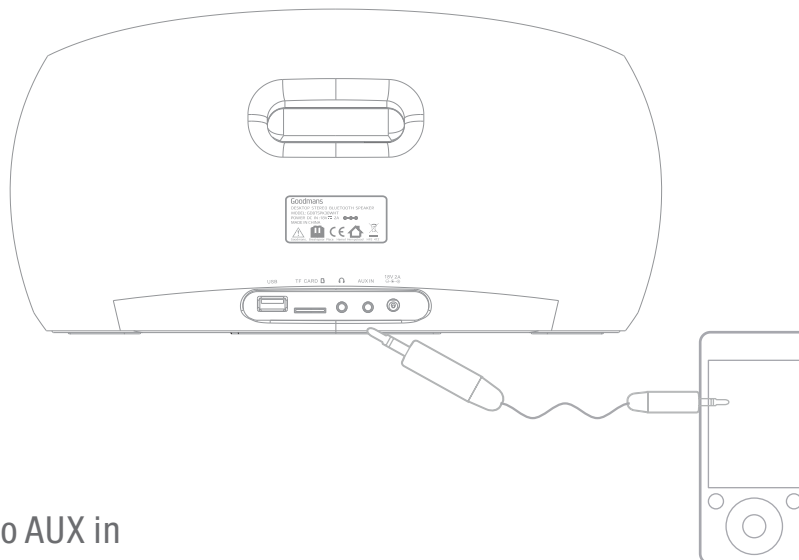

## 5.2 AUX IN MODE

Connect to an external audio device

Connect one end of the 3.5mm audio cable to the external audio devices headphone output and the other end to the AUX input of GDBTSPK30.

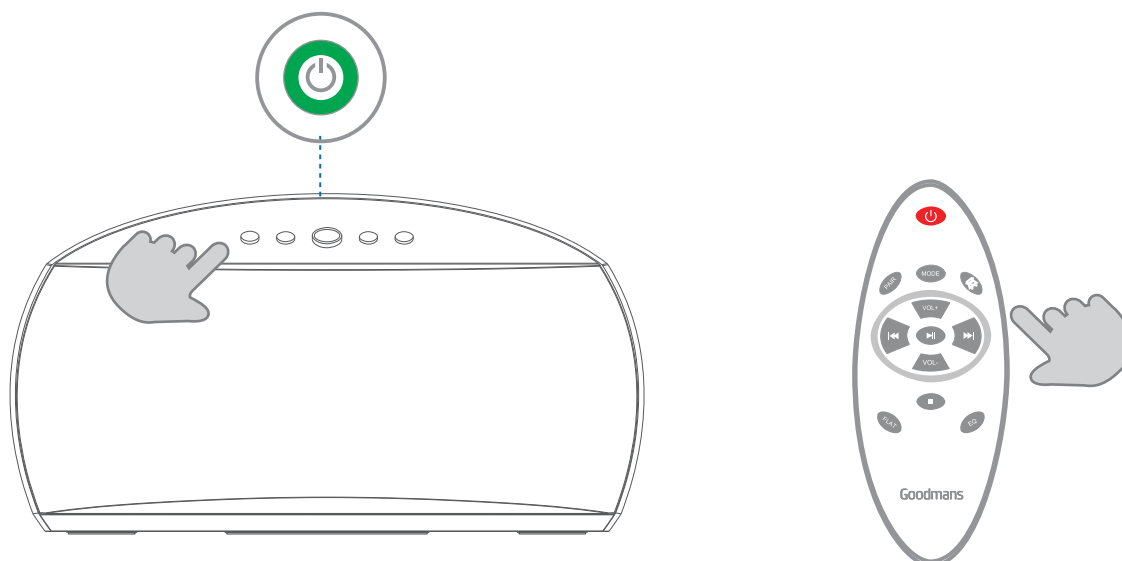

## 5.3 Set the source type to AUX in

1. Press mode button on the remote control, or press the M button on the top of GDBTSPK30. to set AUX in mode. The LED indicator will show green.
2. Press play on the external device to begin playback through GDBTSPK30.

The volume output is effected by the volume level on the audio source EG: Phone or laptop, so make sure that is set to about 70-80% (not too loud to avoid distortion).

Adjust the volume on the unit to the required listening level.

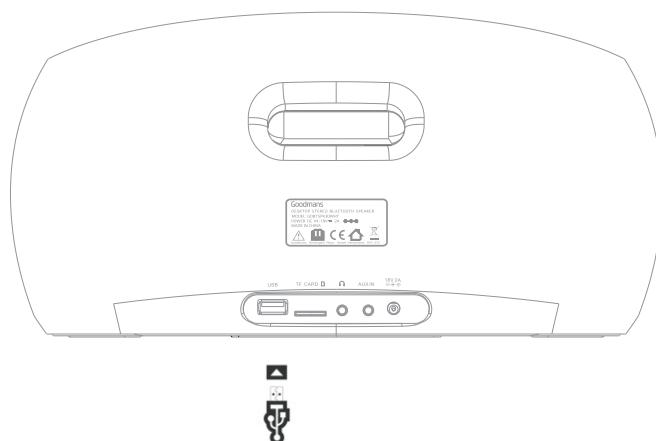

## 5.4 USB Player

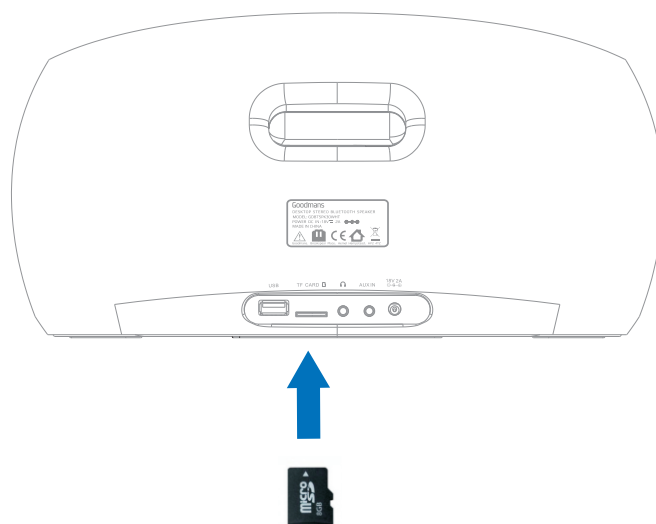

Insert a USB Flash Drive into the USB interface socket. The player will start playback of the MP3/WMA files automatically. If the autoplay is not started, press MODE on the remote control or M on the unit until you reach USB mode (LED indicator on the unit will show yellow colour) and then press **▶||** to play back music.

## 5.5 TF CARD

Insert a TF/SD card into the slot. The player will start playback of the MP3/WMA files automatically. If the autoplay is not started, press MODE on the remote control or M on the unit until you reach TF card mode (LED indicator on the unit will show white colour) and then press **▶||** to play back music.

# 6 Troubleshooting

Problem	What to do
There is no sound from my GDBTSPK30	<ol style="list-style-type: none"><li>1. Make sure GDBTSPK30 is powered on.</li><li>2. Check the volume control of GDBTSPK30 is not at a minimum.</li><li>3. Check GDBTSPK30 is not set to mute.</li><li>4. Make sure GDBTSPK30 is set to the correct source that corresponds to the connected input source.</li><li>5. Check if there is content in the TF card or USB stick.</li></ol>
Distorted sound	<ol style="list-style-type: none"><li>1. Make sure the cable connections on GDBTSPK30 and audio device are secure.</li></ol>
The Remote Control does not work	<ol style="list-style-type: none"><li>1. Replace the batteries (2xAAA).</li><li>2. Make sure the batteries are installed properly.</li><li>3. Make sure there are no obstacles obscuring GDBTSPK30.</li></ol>
Problems with Bluetooth	<ol style="list-style-type: none"><li>1. Make sure GDBTSPK30 is set to the Bluetooth pairing mode. The LED should flash blue.</li><li>2. Ensure your Bluetooth device is enabled. Try connecting with a different Bluetooth device.</li><li>3. Move your Bluetooth device closer (within 33ft/10m) to GDBTSPK30 and retry the pairing procedure.</li><li>4. Check GDBTSPK30 is not paired with other devices. Try unpairing other devices then try the pairing procedure again.</li></ol>
