1 Welcome

Thank you for choosing this Goodmans product. We've been making electronics for the British people for 70 years. Each of our projects has been carefully designed to be great at what it does and this one is no exception. We hope you enjoy your new Pocket DAB Digital Radio.

2 Your DAB Digital Radio

2.1 In The Box

Carefully remove your DAB Digital Radio from the box.

Inside the box you will find:

- DAB Digital Radio
- USB cable
- Lithium battery
- Quick Start Guide
- Guarantee Booklet

USB Cable

Your DAB/FM Radio requires USB power supply.
Please ensure your USB socket is compatible before use.

Position of DAB Digital Radio

Place on a flat, stable surface that is not subject to vibrations.
Avoid the following locations:

- Where it is exposed to direct sunlight
- Where it is close to heat radiating sources
- Where the humidity is high and ventilation is poor
- Where it is dusty

Adjusting the Aerial

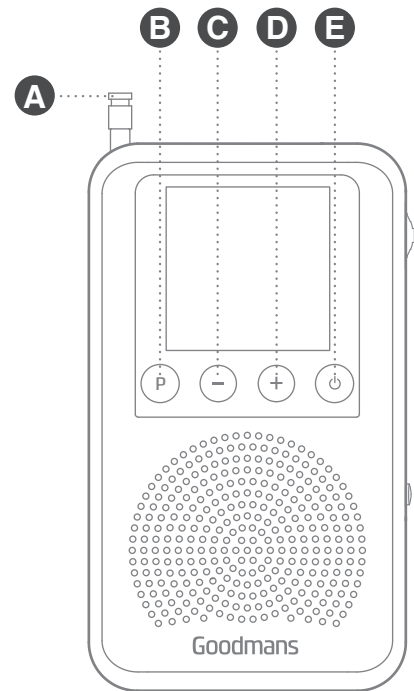

Fully extend the aerial to ensure good reception in both DAB and FM Radio modes. It may be necessary to alter the position of the DAB Digital Radio and/or the aerial to achieve the best signal.

Using Headphones

Headphones require a 3.5mm diameter stereo plug and an impedance of 8-32 ohms. Headphones are not supplied with this DAB Digital Radio.

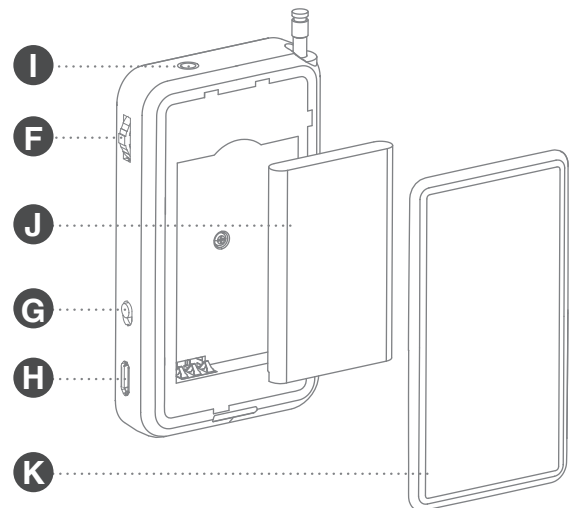

2.2 Front View

- A Aerial**
- B Preset Button**
Press and hold to save a station as a preset, or press to recall a preset station.
- C Volume- Button**
Press to decrease the volume level.
- D Volume+ Button**
Press to increase the volume level.
- E Power / Mode Button**
Press and hold to switch on/off the radio, or press to switch between DAB and FM.

2.3 Rear View

- F Dial**
Press and hold the Dial for 2 sec to perform full scan. Scroll between different stations and then press to select the station. Press to view DLS.
- G Lock Button**
Push to lock the keys.
- H Micro USB Socket**
Used to connect the DAB Digital Radio to USB power supply.
- I Headphone Jack**
Used for headphone.
- J Lithium Battery**
- K Battery Cover**

3 Quick Setup

1. Push the LOCK up to lock the keys.
2. Press and hold the Dial for 5 sec.
3. Scroll to Factory Reset and press the Dial to select.
4. Scroll to Yes and press the Dial to perform Factory Reset.

5 Troubleshooting

Problem	What to do
There is no sound from my radio	Check that the volume is not set to the minimum. Make sure that the radio has been able to locate DAB/FM stations.
The display shows 'NO SERVICES AVAILABLE' in DAB mode	Make sure that DAB coverage exists in your area. Try adjusting the position of the aerial or location of the radio.
Poor reception	As with any radio service, there will be areas of weak signal that may cause poor reception. Follow the instructions for Manual Tuning on 4.11 and adjust the aerial while monitoring the signal strength until the optimum signal is obtained. If reception is still poor, try re-locating the radio to another part of the room.
Some of the buttons on the DAB Digital Radio are not working	This may be caused by electrostatic discharge. Turn the DAB Digital Radio off, disconnect the USB plug and retry after a few seconds.
