Mains Power

Your 100W Soundbar requires a mains supply of 230-240V AC ~ 50Hz. Please ensure that your mains supply is compatible before use. Disconnect the Power Cord from the mains when not in use.

Position of 100W Soundbar

Place on a flat, stable surface that is not subject to vibrations. Avoid the following locations:

- Where it is exposed to direct sunlight
- Where it is close to heat radiating sources
- Where the humidity is high and ventilation is poor
- Where it is dusty

5 Troubleshooting

Problem	What to do
Soundbar does not respond (no power).	Check the mains power cable and make sure it is plugged into a suitable power outlet. Check that the mains power supply is switched on. Connect the power to a different power outlet.
No sound.	Check the Soundbar volume control is not at minimum. Check that the Soundbar is not set to MUTE. If you are connecting to the Soundbar using a headphones port on your extemal audio device then check the volume is turned up on that device.
The Remote Control does not work.	Replace the battery. Make sure there are no obstacles obscuring the Soundbar.
No sound in Bluetooth mode.	Check that the Soundbar is Paired with a Bluetooth device. If prompted enter the code '0000'.
